

# Where Women Chase You!

## **There are places in the world where the woman chase you!**

Yes, I know it's hard to believe, especially if you live in a big city like Los Angeles or London.

In the Western world, unless you look like Channing Tatum you have to work your ass off to get the attention of even a moderately attractive woman.

I've been involved in the Pick-up scene for about 5 years, and I've gotten pretty damn good. I've scored 9's and 10's in some of the toughest dating markets in the USA including Los Angeles, New York and Miami.

But, Man! Sometimes it gets exhausting. American women in particular have such a sense of entitlement that sometimes I just want a break.

And that's when I travel abroad!

There are places in the world where the tables are turned. Where women work their tails off to get YOUR attention.

For obvious reasons these amazing places have become Hotspots for men seeking foreign girlfriends, wives, or just a casual fling.

Below is a list of countries where the women are the predators - and the men are the Prey!

Hell Yeah!

# Top 5 Global Dating Hotspots

## **PHILIPPINES**

*Language: Tagalog (over 50% of the population speaks English)*

It's impossible for me to explain how great this place is for single men!

Women will pursue you relentlessly, in malls, at the park, walking down the street.

If you are a young, moderately attractive guy you will be beating women off with sticks. If you are older and not so attractive, you will still get more attention than you can handle!

Seriously, it's ridiculous!

If you like Asian women then the Philippines should be at the top of your list, especially if you live in Australia as it is only a 3 hour plane ride away!

Filipinas are warm and friendly and they are some of the most beautiful women in all of Asia. Their mixed Spanish blood gives them an exotic beauty you won't find anywhere else in the world.

One of the best things about the Philippines is that they recognize English as one of their official languages. Most of the Filipinas you find on international dating sites will speak at least a little bit of English, most will be at an intermediate level or above.

If you come from an English speaking country then you will have far fewer issues dating a Filipino woman as opposed to dealing with the language and cultural barriers of Chinese or Thai women.

When it's time to travel overseas to meet your new girlfriend in person the Philippines is a great place to visit. They have some incredible beaches and world class Scuba diving.

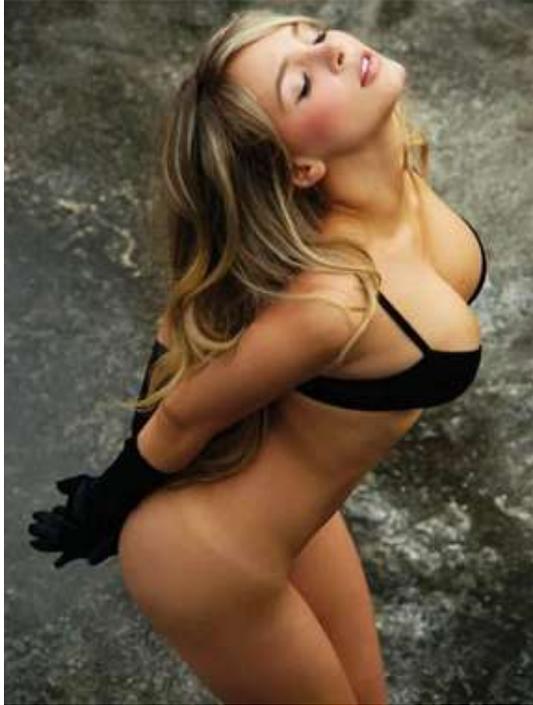

Like Thai women, Filipinas don't seem to have any trouble dating guys who are much older than them! This is one of the reasons why the Philippines has become a favourite retirement haven for men from the USA, EU, and Australia.

It's really amazing to me what a bad reputation the Philippines has as being a dangerous 3rd world dump.

Believe me - It's just not true!

The only danger you will face in the Philippines is that you will not want to go back home!

## COLOMBIA

*Language: Spanish*

Colombia tops the list of Latin countries for several reasons:

First, Colombian women have a HUGE presence on International dating sites, second only to Ukrainian women.

There are thousands and thousands of incredibly beautiful Colombian women with profiles on international dating sites like [Amolatina.com](http://Amolatina.com), [A Foreign Affair](http://A Foreign Affair) and [ColombianCupid.com](http://ColombianCupid.com).

With so many available women on-line your odds of finding a compatible partner

are increased greatly.

Second, Colombian women are warm, friendly, sociable and approachable - they love to dance party and have fun!

Many of the larger Global dating agencies run tours to major Colombian cities like Cartagena, Medellin and Barranquilla.

Sadly, I have never been on one of these tours, but from everything I've read these are the most popular tours the agencies operate - mostly due to the outgoing personalities of the Colombian women who show up to the mixers.

Third, Colombia is a great place for single men to visit. It's very affordable and easy to get to for men from the USA and Canada.

Countries like Costa Rica and Brazil have had a recent tourism boom which has jacked up prices in those countries, but Colombia is still a relative bargain.

Many people still think of Colombia as a dangerous place full of coca fields, violent crime, rebel shoot-ups and kidnappings, but this is no longer the case, the drug wars that plagued the country during the 80's and 90's have moved north to Mexican border towns like Mexicali and Tijuana.

Today Colombia is a very safe destination for foreign tourist and a GREAT place to find Latin love.

If you like Curvy Latin women then Colombia is for you!

## THAILAND

*Language: Thai*

Like the Philippines, Thailand is a very popular destination for guys who travel overseas looking for a wife, girlfriend or casual fling.

There are probably more Western expats living in Thailand than pretty much any other country in Asia, except maybe The Philippines.

However, where Thailand falls flat is in the amount of Thai girls who use international dating sites.

You won't find many profiles of Thai girls on the bigger International dating sites. I'm not really sure why this is - it might be that the bigger agencies just

haven't established a base of operations in Thailand yet.

It could be the language barrier, many Thai women have no reason to learn English unless they live in one of the bigger cities.

But I think the main reason is that, unlike other countries on the Hot List, Thai girls really don't have a burning desire to leave Thailand.

They like the idea of marrying a foreigner, but why the hell would they want to leave Thailand? If you had been to Thailand you would probably feel the same way.

Thailand is one of the most beautiful countries in the world, the beaches are like Paradise, the Government is relatively democratic, the people are friendly, it's warm all year round - so why would your new Thai wife want to follow you back to Minnesota and leave all that behind.

Many Ukrainian women can't wait to flee the poor Ukrainian economy and sub-zero winter temperatures.

Filipinas want to get away from the staggering poverty and government corruption.

But Thai women... No way!

So, if you have your sights set on a Thai girl you are going to need to do a little more work on-line to find them.

Here are the top 3 sites for finding Thai women:

[ThaiCupid.com](http://ThaiCupid.com)

[Cherryblossoms.com](http://Cherryblossoms.com)

[Dateinasia.com](http://Dateinasia.com) (free)

Or, you could just take a trip to Thailand where you will have no problem finding beautiful Thai women to date or marry.

But you better have a pretty sweet life back home if you are gonna try to convince her to follow you back.

Then again, you could just move to Thailand like thousands of men before you have done.

## UKRAINE

*Language: Ukrainian (65%), Russian (33%) Other (2%)*

When most guys think about Global Dating the first thing they think of is Russia, so it may surprise you that Russia is not in my top 5 Global Dating Hotspots.

Instead I have decided to list The Ukraine.

Why?

Because Ukrainian women are absolutely beautiful and there is nowhere else in the world with such an abundance of women looking for foreign men.

International dating sites are packed full of profiles of beautiful Ukraine women looking for foreign boyfriends and

husbands. This makes your odds of finding a girlfriend or wife in the Ukraine extremely high.

Global dating is well established in the Ukraine and many of the large International dating sites run Romance Tours to multiple Ukrainian cities on a regular basis.

The Ukraine is a great choice for men who live in Western Europe since it is only about a 3 hour flight from Berlin to Kiev.

If you live in the USA or Canada it's a bit more of a journey to get to The Ukraine, but once you get there you will not be disappointed.

The biggest drawback about the Ukraine is of course the language barrier. Many of these girls speak little or no English, so you may have to use a translator.

If you like statuesque Blondes then the Ukraine is a great place to start your Global dating journey!

## **BRAZIL**

*Language: Portuguese*

I really wasn't sure about putting Brazil in the top 5 Global Dating Hotspots, when I started thinking about it there were as many negatives as there were positives.

But after looking at some new Brazilian girls dating profiles over at Amolatina.com I found it impossible to leave Brazil off the list.

### **Here are the Positives:**

For sheer exotic beauty you just cannot beat Brazilian women. Because of their mixed heritage you can find Brazil girls with just about any look you can think of.

Places like Sao Paulo and Santa Catarina are known for their blondes and lighter skinned ladies, while places like Rio are known for the "Cariocas" which have a more mixed heritage.

There are thousands of Brazilian women on-line, so you won't have a problem finding beautiful, intelligent women to communicate with.

Brazilian girls love to party, in general they are not as warm and friendly as Colombian women, but once you break the ice you will be guaranteed a good time.

Brazil is a vibrant, modern city and a world class tourist destination.

### **Here are the Negatives:**

Yes, there are thousands of super-hot Brazilian women on Global dating sites but in my experience guys have not had as much luck making a relationship work with Brazilian girls.

Another big drawback is the language, unlike other places in Latin America where you finally have a chance to use that high school Spanish, Brazilians speak Portuguese, which is not an easy language to learn!

With the Brazilian economy booming Brazil is no longer as cheap as it used to be for Americans, especially in the main cities.

In Summary - I would say that as a travel destination Brazil is still probably one of the best places on the planet for single men.

But if you are going to try and strike up a relationship on-line, you will probably have to work a little harder than you would if you had set your sites on a Colombian woman or a Filipina.

## ***Runners Up***

Here are some Hotspots that didn't quite make it into the top 5, but they are still great options:

Dominican Republic

Costa Rica

Russia

China

Colombia

*Note on African Countries:*

Global dating in Africa is too new still for me to include any African countries in the hot-list. If you are really set on finding an African girlfriend or wife then by all means go for it.

I just don't have any personal experience with African dating (yet) and don't have any reliable second hand accounts to go by.
